OBJECTIVE

Highly motivated and quick-learning software engineering graduate with a strong foundation in computer science fundamentals. Skilled in programming, web development, and database management with hands-on project experience. Seeking an opportunity to apply technical skills, grow professionally, and contribute to innovative software solutions.

EDUCATION

GATES Institute of Technology, Gooty
B.TECH - Computer Science & Engineering

CGPA: 8.8
Nov 2021 - Apr 2025

A.P Model School & Junior College, Gooty
INTERMEDIATE - MPC

CGPA: 8.8
Jun 2019 - Mar 2021

SKILLS SUMMARY

- **Languages:** Java, MySql, Frontend
- **Frameworks:** SpringBoot, REST API's , JDBC
- **Tools:** Ms-office, Excel, Git, Github, AI, PGDCA
- **Platforms:** Eclipse, Jupyter Notebook, Visual Studio Code
- **Testing:** Manual Testing & SDLC Knowledge
- **Soft Skills:** Communication, Quick Learning, Adaptability, Problem-Solving

WORK EXPERIENCE

Java & Python Full Stack Intern | Vstand4U Technologies Private Limited

May 2025- Sep 2025

- Developed responsive web applications during an onsite internship, utilizing Core to Advanced Java, SQL, and modern frontend technologies including React.js and jQuery.
- Gained hands-on experience in full-stack development principles, successfully integrating applications with databases.

PROJECTS

Block Chain For Safer & Traceable Indian Dairy Products

Dec 2024 - Apr 2025

- Engineered a blockchain-based desktop application to enhance transparency in the Indian dairy supply chain, using Python, Django, and smart contracts.
- Implemented a decentralized ledger and automated transactions via smart contracts to ensure compliance and traceability.
- Applied SDLC best practices to deliver a reliable solution, integrating a database and a user-friendly UI for a seamless experience.

University Management System | Full Stack Java Developer Project | May 2025 – Sep 2025

- Developed a scalable University Management System using Java, Spring Boot, MySQL, React, HTML, CSS, and JavaScript.
- Created RESTful APIs for managing students, faculty, departments, courses, and enrollment records.
- Implemented authentication, authorization, and data validation to ensure secure access and reliable data management.
- Integrated frontend and backend components, providing a responsive user experience and efficient academic administration

NAMMAORU SOBAGU- Restaurant Website | FrontEnd Development

May 2025 - Aug 2025

- Designed and developed a responsive restaurant website using HTML5, CSS3, and JavaScript.
- Created a user-friendly interface that effectively showcases the restaurant's menu, services, and ambiance, leading to an improved user experience with modern layouts, animations, and responsive design for desktop.

CERTIFICATES

- Programming in Python (Apponix)
- Introduction to Java (Great Learning)
- Microsoft Certified Associate (Microsoft)
- AWS Cloud Practitioner (Edu Skills)
- Cloud Computing & Advanced Computer Architecture (NPTEL)

ACHEIVEMENTS & RESEARCH PUBLICATIONS

- **Honor Award – GATES Honor Society**
Recognized for consistent academic excellence across all semesters, demonstrating strong commitment to scholarly achievement.
- **Block Chain For Safer & Traceable Indian Dairy Products** (*Published in a peer-reviewed journal*)
Proposed a blockchain-based solution to enhance transparency, security, and traceability in the dairy supply chain.
